Title 7—Agriculture CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 488]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Minimum Size Requirement

This regulation sets a minimum size requirement of 2.20 inches in diameter applicable to the handling of Valencia oranges grown in District 1 of the California-Arizona production area during the period April 4 through May 15, 1975. Such action is necessary to satisfy current and prospective market demand for fresh shipments of such California-Arizona Valencia oranges. The specified minimum size requirement is consistent with the size composition and available

supply of the developing crop of Valencia oranges in District 1.

§ 908.788 Valencia Orange Regulation 488.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the regulation of shipments of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The minimum size requirement specified herein reflects the Department's appraisal of the crop and current and prospective marketing conditions during the period April 4 through May 15, 1975. The 1974-75 season crop of Valencia oranges is currently estimated at 57,700 carlots. The demand in regulated market channels will require about 36 percent of this volume, and the remaining 64 percent will be available for utilization in export, processing, and other outlets. Fresh shipments of Valencia oranges from District 1 are expected to begin on or about the effective time of this regulation. The volume and size composition of the crop of Valencia oranges grown in District 1 are such that ample supplies of the more desirable sizes are available to satisfy the demand in regulated channels. The regulation herein specified is designed to permit shipment of ample supplies of fruit of the more desirable sizes in the interest of both growers and consumers. The action is necessary to maintain orderly marketing conditions, provide consumer satisfaction, and guard against the shipment of undesirable sizes of Valencia oranges which tend to weaken the market for such fruit. The regulation therefore is consistent with the objective of the act of promoting orderly marketing and protecting the interest of consumers.

(3) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this

section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate a declared policy of the act, to make this section effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 4, 1975. Necessary supplemental information was received on March 17, 1975.

Order. (a) During the period April 4, 1975, through May 15, 1975, no handler shall handle any Valencia oranges grown in District 1 which are of a size smaller than 2.20 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit: *Provided*, That not to exceed 5 percent, by count, of the Valencia oranges contained in any type of container may measure smaller than 2.20 inches in diameter.

(b) As used in this section, "handle", "handler", and "District 1" shall have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674))

Dated, March 21, 1975, to become effective April 4, 1975.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.
